- **Responsible** innovator
- **Love** for collaboration
- **Efficient** learner
- **Systemic** thinker
- **Visual** communicator

Javascript Developer striving to create **novel ways** of interweaving **state of the art technology**, **meaningful user experiences** and **engaging data visualization** to strengthen communities / organizations and encourage **sustainable and more effective strategies** for tackling **systemic problems**.

Key tech skills

- React
- GraphQL
- D3
- Git
- Node / Express
- MongoDB / Mongoose
- Javascript / ES6
- HTML5
- CSS3

Experience

2018 – CURRENT

CMS Website Support / WearFair

Design and **adaptation** of newsletter registration page using CSS and HTML improving accessibility and usability. **Maintenance** of plugins, content actualization and editorial tasks.

2013 – 2018

Project Coordinator & Designer / WearFair, Südwind, Weltladen

Designing collaborative spaces for NGOs (*Initiativendorf*) on public fairs. Responsible for carrying each event from **design to realization**, **managing communications** with over 20 NGOs and other stakeholders increasing the number of participating organizations from **8 to 18 over three years** at the *WearFair*.

2016 – 2017

Think Tank for next generation web platforms / Based in Vienna

Organizing regular meetups, **analyzing existing projects** and **discussing conditions and factors for a more humane digital space** supporting local communities. Conversations took place over a year with **multiple regional groups working on the topic**. Insights of the discussions lead me to learning the hands-on development skills to start realizing the vision.

2012 – 2013

Campaigning Assistant / Südwind Wien

Website support, **event organization**, **internet research** and **office tasks** in the campaign department of the Vienna-based NGO *Südwind*. **Client support** via telephone and email.

Education

2017 - CURRENT

freeCodeCamp / Certificates

Comprehensive hands-on web development program. Claimed **certificates** for **Responsive Web Design**, **JavaScript Algorithms and Data Structures**, **Front End Libraries**, **Data Visualization**, **APIs and Microservices**. Currently finishing the **Information Security and Quality Assurance** projects.

SPRING 2018

Programming Languages / Course series

Intensive and challenging course series about **fundamental concepts in programming** that involved writing programs in the languages **ML**, **Racket** and **Ruby**, conducting peer reviews and exams.

2016 - 2017

Pioneers of Change / Entrepreneurial program

Guided 1-year **personal development** and **social entrepreneurship** program learning the process from **ideation to realization**, including **stakeholder analysis**, **working out the target audience**, **financial planning**, **pitching** and not burning out.

2013 - 2016

University of Vienna

University of Natural Resources and Life Sciences

University College of Agrarian and Environmental Pedagogy

Individual Studies combining ecology, philosophy and pedagogy.

2009 - 2012

HTL Electrical Engineering

Personal statement

My engagements with NGOs, projects and initiatives throughout Austria have given me a deep **understanding of what makes collaboration work** and which obstacles are there to overcome. I still check in with several friends who are now in leading positions within their chosen projects to reflect, consult and exchange ideas on how we can set healthy impulses in the world.

As a developer I am proud to be a **co-creator of our digital and non-digital future** and take my responsibility seriously. I realize how strong digital technology is shaping our world and work for a more **reflective and appreciative use of technology** that serves people and not consumes them.
